

STATE OF MAINE  
PUBLIC UTILITIES COMMISSION

Docket No. 2004-135  
Docket No. 2002-682

VERIZON MAINE  
Petition for Consolidated Arbitration

August 26, 2004

VERIZON-MAINE  
Proposed Schedules, Terms,  
Conditions and Rates for Unbundled  
Network Elements and Interconnection  
(PUC 20) and Resold Services (PUC 21)

PROCEDURAL ORDER

---

A teleconference of the parties was held today during which we discussed how to proceed with this case. After extensive discussion, I determined that the best course of action in the short term is for the parties to develop a joint matrix depicting the legal status of all UNEs. The joint matrix must be filed by **September 13, 2004**. In order to ensure that the matrix is completed on time, I am establishing the following parameters and assignments:

**1. Column Headings**

- a. Name of UNE
- b. *TRO* ruling, i.e. must it be unbundled pursuant to § 251?
- d. *USTA II* ruling
- d. Interim Rules
  - i. requirements for first six months
  - ii. requirements for second six months
- e. 271 requirement – if the UNE is not required to be unbundled under § 251, must it be provided pursuant to § 271?
- f. State law unbundling – has the MPUC issued a decision requiring unbundling under state law?
- g. Applicable pricing standard, i.e. TELRIC, federal “just and reasonable” or state “just and reasonable”?

**2. UNEs**

The UNEs listed below should be included in the matrix and the person/party assigned must take the lead in populating the matrix. Verizon will be responsible for keeping the master matrix which will ultimately be submitted to the Commission.

- a. Loops
  - i. Copper - **Verizon**
  - ii. Line Sharing – **Andy Klien (Competitive Carrier Group)**
  - iii. Hybrid – **AT&T**
  - iv. Fiber to the Home – **AT&T**

- v. DS1 -- **Conversent**
- vi. DS3 – **Conversent**
- vii. Dark fiber -- **Conversent**
- b. Subloops – **Eric Samp/Andy Hinkley/Wayne Jortner (GWI, Cornerstone and OPA)**
  - i. Copper Subloops
    - Distribution
    - Feeder
  - ii Fiber Subloops
    - Distribution
    - Feeder
- c. NIDs - **Verizon**
- d. Switching – **Phil Macres/Ed Kirsch (Swidler Coalition)**
  - i. Mass market
  - ii. Enterprise
  - iii. Signaling, call databases and shared transport
- e. Dedicated transport – **Joe Donahue/Ben Sanborn (CLEC Coalition & USA)**
  - i. DS1
  - ii. DS 3
  - iii. Dark fiber
- f. OSS - **Verizon**

### 3. Other issues

Issues which impact all UNEs should be listed separately from the matrix.

Verizon shall create and circulate an unpopulated matrix by the end of the day on **August 30, 2004**. Assigned parties must send Verizon (and copy all other parties) their submission no later than **12:00 noon on September 2, 2004**. Verizon will then circulate a fully populated matrix by the end of the day on **September 3, 2004**. Parties should then exchange comments during the week of September 6<sup>th</sup> and take any necessary steps (including holding a conference call) to reach agreement on the content of the matrix. Verizon shall file the Joint Matrix **on September 13<sup>th</sup>**.

BY ORDER OF THE HEARING EXAMINER
